

NANCI membership application and company information

NANCI was launched in 2017 stemming from the desire of the Namibian health and beauty industry to organise and promote itself, to facilitate access to information and opportunities, organise generic marketing and advocate for the needs of the industry. In 2019, the sector representatives decided that the network be registered as a voluntary society and that NANCI becomes subscription-based (annual membership fees). The NANCI Constitution guides the membership and each member must agree to it before being accorded membership. Please also see the Membership Terms and Conditions at the end of this form.

NANCI consists of exceptional cosmetic business owners with various industry experiences. Our diverse group of members represent the entire value chain of the Namibian health and beauty industry by offering raw materials, ingredients and finished cosmetic products with key processed raw materials and ingredients sourced mainly from the rich Namibian biodiversity.

NANCI is supported by the Namibian Government's Growth@Home Policy implemented by the Ministry of Industrialisation and Trade, as well as from various trade facilitation programmes.

Once you have completed and submitted the information, NANCI will update your information on the NANCI website and create linkages between NANCI social media platforms and your company. If you don't wish for such linkage, please clearly indicate such on the questionnaire.
